# Citizenship Education

Citizenship education develops knowledge, skills and understanding that pupils need to play a full part in society as active and responsible citizens.

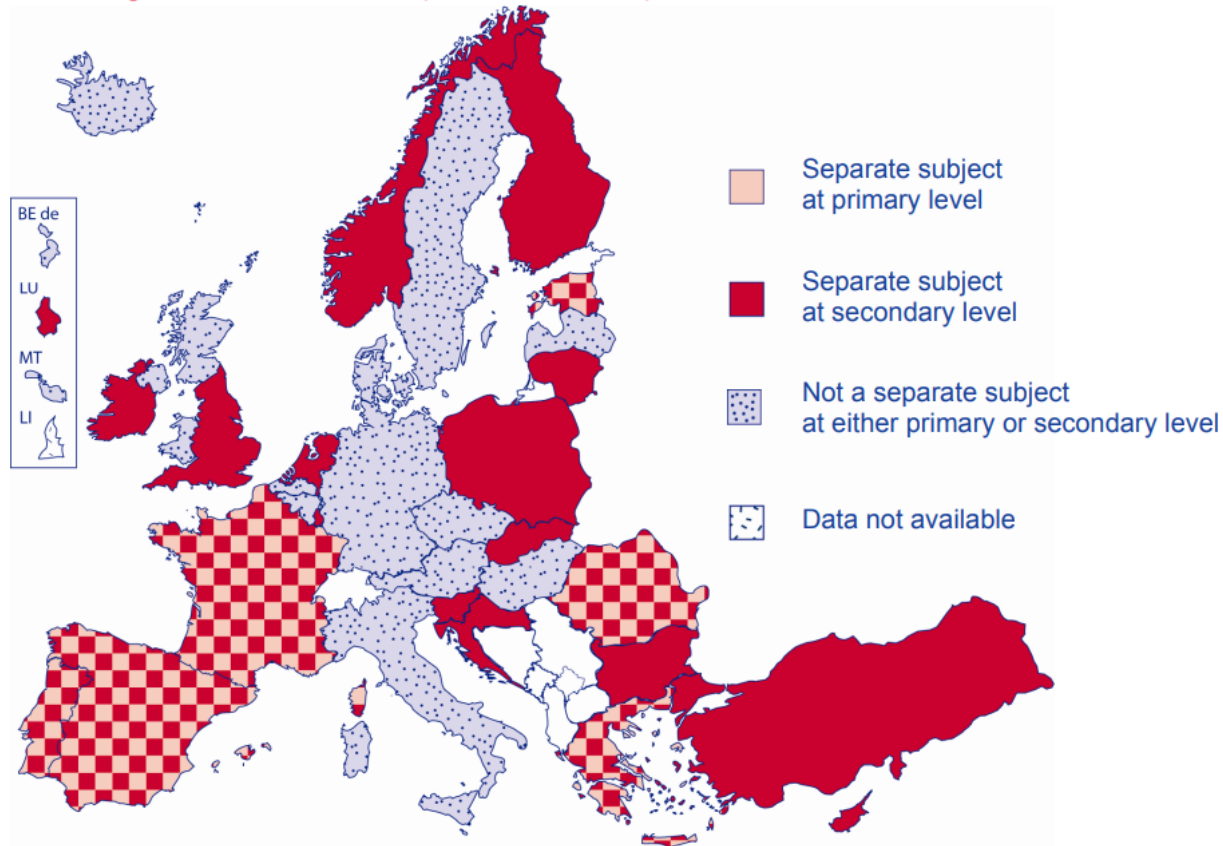

Pupils are taught about democracy, politics, parliament and voting. They also learn about human rights, justice, the law, media and information literacy, climate change and sustainability, personal finance and the economy.

Political literacy is developed alongside the skills of active citizenship through practical opportunities to address issues of concern by taking different forms of responsible, democratic action and campaigning. Throughout the subject teaching is brought to life using real, topical issues and case studies in local to global contexts.
